Bamberg County
File #51778

Deep Groundwater Delineation Technical Memorandum dated June 10, 2020

Dear Ms. Washington,

The South Carolina Department of Health and Environmental Control (Department) has reviewed the Deep Groundwater Delineation Technical Memorandum for the Delavan Spray Technologies Site in Bamberg, SC. The referenced document presents the results of additional assessment completed at the Delavan site to determine the extent of groundwater contamination in the deep limestone aquifer. The Department concurs with the results. Monitoring wells MW-33D, MW-34D, MW-35D, and MW-36D should be incorporated into the semi-annual groundwater sampling schedule going forward.

If you have any questions, please contact me at (803) 898-0816 or devlincl@dhec.sc.gov.

Sincerely,

Cynde L. Devlin, Project Manager
State Voluntary Cleanup Program
Bureau of Land and Waste Management
