

2025 S.C. Radon Poster Contest

First place winner of the 2024 National Radon Poster Contest
Addilyn, Colorado

The S.C. Department of Environmental Services is holding its second statewide radon poster contest sponsored by the Indoor Environments Association. Help spread an important public health message by entering this contest!

Radon is a colorless, odorless and tasteless gas that can cause lung cancer. The U.S. Surgeon General lists radon exposure as the second leading cause of lung cancer in the United States. This radioactive element comes from the ground and can easily enter homes and buildings through foundation openings. The only way to detect the amount of radon gas present is to test for it.
