

### Section III (Dam Inspection Checklist) continued

#### B. Upstream Slope

- i. Vegetation (grass, trees weeds)? grass
- ii. Animal activity observed? \_\_\_\_\_
- iii. Any obvious alterations or repairs made? \_\_\_\_\_
- iv. Erosion observed on upstream slope? Some bare spots. Need grass
- v. Settlement or cracks visible in slope? Cover - Rip Rap with help prevent wave erosion

#### C. Down Stream Slope

- i. Vegetation (grass, trees weeds)? good grass cover, NO trees in Dam
- ii. Animal activity observed? \_\_\_\_\_
- iii. Any obvious alterations or repairs made? \_\_\_\_\_
- iv. Erosion observed on down stream slope? \_\_\_\_\_
- v. Settlement or cracks visible in slope? \_\_\_\_\_
- vi. Toe drains flowing? \_\_\_\_\_
- vii. Any seepage observed? If so, describe location, flow rate, and any turbidity or color within the flow: \_\_\_\_\_

#### D. Primary Spillway

- i. Any visible deterioration of structure? NO
- ii. Is there an obvious need to repair or replace trash rack? clean
- iii. Any noticeable problems with debris? NO
- iv. Is valve or gate present? yes

#### E. Outlet Pipe

- i. Any water visibly flowing or leaking outside of the discharge pipe? NO
- ii. Describe any deflection or damage observed to the pipe: NO
- iii. Visible condition of outlet channel: good

#### F. Auxiliary (Emergency) Spillway

- i. Noticeable obstructions to flow? None
- ii. Animal activity observed? \_\_\_\_\_
- iii. Any noticeable deterioration in the approach or discharge channel? \_\_\_\_\_
- iv. Any visible deterioration of structure's crest? \_\_\_\_\_

**F. Auxiliary (Emergency) Spillway continued**

v. If applicable, any observed exposure of rebar reinforcement? \_\_\_\_\_

vi. If applicable, any visible leakage below concrete spillway? \_\_\_\_\_

**H. Downstream/Hazard Class Issues**

i. Any noticeable changes immediately downstream of the dam that affects the hazard classification? NO

**I. Emergency Action Plan (EAP)**

i. Emergency Action Plan provided by owner? NO

ii. Does EAP contains emergency alert notification plan? If so, when was it last updated? \_\_\_\_\_

iii. Does EAP contain specific actions to take if the dam has failed or is near failure? \_\_\_\_\_

**Section IV (Conclusions)**

**General comments and recommendations:**

- add good grass cover to bare spots on  
upstream slope

**Preliminary Dam Inspection Disclaimer:**

The information contained in the preliminary inspection report is intended as an aid to identify those dams that require maintenance and/or repair actions to reduce their danger to human life or property only. It is not intended as professional engineering or consulting advice for conditions or situations present at individual dams. It is not a substitute for a detailed inspection, nor does it replace the need for services provided by registered professional engineers. If your dam is experiencing an unusual situation consult with engineering professionals to find an appropriate remedy. Preliminary inspections conducted by South Carolina Department of Health and Environmental Control (the Department) are provided "AS IS" and "as available", without warranties of any kind, either express or implied. Preliminary inspections consist only of a visual but technical examination of the dam and its appurtenant works. All findings are based solely on visual observations of the inspector at the time of the inspection. Common law holds that the storage of water is a hazardous activity and the Department does not assume any responsibility or risk for your actions or inactions. Dam owners are responsible for the safe operations and maintenance of their impoundment structures.
