RE: Reinspection of Dam D-0029, North Lake Dam, Richland County

Dear Mr. Tueber:

This office performed a routine inspection of the North Lake Dam on Monday November 15, 2010. Enclosed you will find an inspection report which summarizes any comments or concerns.

Also enclosed is a copy of the Emergency Notification and Surveillance Plan. Please keep this in an easily accessible location so that all agencies can be notified as quickly as possible should the dam ever experience difficulty. Should the person responsible for implementing the plan change, our office must be notified immediately.

Provisions in the SC Dams and Reservoirs Safety Act require the owner to notify us within 30 days after transferring title or control of a dam to someone else. Enclosed is a form for your use should this transfer be necessary. Please note that this notification must include the name and address of any new owner.

If you need any assistance or have any questions prior to the next inspection, please do not hesitate to contact us at (803) 896-0620.

Sincerely,

Steven Hauptmann
District Engineer Associate

List of noted deficiencies or items requiring correction/checking:

- vegetation (brush, weeds, etc.) and small trees (less than 6 inches in diameter) should be cut and removed from dam.
- The area above the spillway needs to remain clear of any branches or other obstructions.
- Downed trees should be removed
- Trees within 50 ft of the centerline of the discharge pipe should be evaluated for removal and the stumps/root structure should be removed and repacked.
- A good grass cover needs to be maintained on the dam and pine straw removed as it inhibits a view of moisture and some damage.

Note: Dam should remain clear of vegetation year round.

List of previously noted items still uncorrected and dates previously noted:

*The vegetation and small trees should be removed from the dam was noted in April '97, November '97, May '99, May '00, May '01 and May '02, May 2003, 12 2007
